Hi Joe,

I have added the October through December data for Poly-Metal Finishing added to your requests as we discussed before the new year.
I also have all the information you requested in pdfs.
I will be sending over this morning.

Thanks,

Bob Weaver

Hi Bob and Bill,
Hope the new year is treating you well.
Back in October we talked about EPA's pretreatment sampling inspection at Poly - chromium result was 5.4 mg/l.
I requested a copy of their IDP, and 5 years of sampling data.
You thought best to provide information by mid to early December.

Well – we had a shut down and it put me behind.
I'm just getting caught up and following up on this project.
Thanks.
